

Cé JJR

WE ARE

Shedding new light on the classic garage band hype, Cé JJR is an experimental sound you won't want to miss. Led by the cagey wit of rapper Cé, the group is propelled into the modern lull of electric guitar and simultaneously cradled by the dulcet undertones of jazzy harmonies. Collaborating classical training with a hobbyist's passion, Cé JJR is the explosive spark borne of an intellect's mind, propelled by two sophomores and two seniors whose talents tread farther than a semester's suggested credits.
